

M. MUZAMMIL SHAH

Power Platform Consultant · AI Engineer · Founder

Karachi, Pakistan | +92 330 235 8711 | syedmmuzammil42101@gmail.com | linkedin.com/in/syedmuhammadmuzammil077 | github.com/Muhammad-Muzammil-Shah | jobvibeai.com

SUMMARY

Microsoft Certified Azure AI Apps and Agents Developer (Associate), building Copilot Studio agents and Power Platform automation for an Australian consultancy. Founder of JobVibe AI, an AI recruitment platform. Teach AI part-time at Bano Qabil, and have delivered 7 technical sessions on Azure AI to 100+ students as a Microsoft Learn Student Ambassador. I work the whole path from a business problem to a deployed agent, and drop into Python and LangChain when the low-code route runs out.

TECHNICAL SKILLS

Microsoft	Copilot Studio, Power Automate, Power Apps, Dataverse, Power Pages, Azure AI Foundry, Azure Machine Learning Studio, Azure Web Services
AI & ML	Python, LangChain, RAG pipelines, LLMs (Groq, GPT), prompt engineering, NLP, semantic search, OpenCV, YOLOv11
Automation	n8n, VectorShift, Supabase (vector), Twilio, Flask, Server-Sent Events, REST APIs
Data	SQL, Pandas, NumPy, scikit-learn, Matplotlib, Power BI, ETL pipelines

EXPERIENCE

Power Platform Consultant · 1Dynamics PTY LTD — Australia (Remote) Feb 2026 – Present
Full-time

- Build and ship Copilot Studio agents with multi-topic routing and Adaptive Cards, deployed to Microsoft Teams for internal business users.
- Automate recurring business processes with Power Automate and Dataverse, removing manual handoffs between teams.
- Run scheduled jobs and cloud workflows on Azure Web Services, Azure AI Foundry and Azure Machine Learning Studio, with monitoring and SLA tracking.
- Test agents end to end before release — topic triggers, fallbacks, response accuracy — and iterate on what fails.

Founder · JobVibe AI — jobvibeai.com Jan 2026 – Present

- Built and launched an AI recruitment platform that screens CVs, generates interview questions from a job description and runs scored real-time interviews.
- Designed the scoring model across communication, confidence, reasoning and knowledge, producing percentile reports so candidates are compared on evidence.
- Own the product end to end: architecture, LLM pipeline, evaluation logic and the hiring workflow it replaces.

AI Instructor · Bano Qabil — Alkhidmat Foundation Pakistan Sep 2026 – Present
Part-time

- Teach Artificial Intelligence on a free IT education programme running across Karachi campuses.
- Deliver hands-on modules in Python, machine learning, NLP and generative AI agents, taking students from fundamentals to a working project.
- Mentor students through code review and preparation for their first technical roles.

PROJECTS

AI Knowledge Base Copilot — RAG assistant for enterprise Q&A: Azure AI Search embeddings and Blob Storage feeding a Copilot Studio agent, with semantic search across large document sets. Azure AI Search · Copilot Studio · Blob Storage

Copilot Studio Agent (Microsoft Agent Academy) — Declarative agent with topics, triggers, Adaptive Cards and agent flows, published to Microsoft Teams and M365 Copilot for live users. Copilot Studio · Power Automate · Teams

CallBotX — Real-time Voice AI Agent — Voice assistant chaining speech-to-text, RAG retrieval, LLM generation and spoken response, streamed over Server-Sent Events. Flask · Groq · RAG · STT/TTS

Azure AI Studio Multi-Modal Generator — Content generation system combining text, image and speech on Azure AI Studio with Azure Cognitive Services. Azure AI Studio · Cognitive Services · Python

n8n Automation Suite — RAG research assistant (n8n + Supabase vector + Azure embeddings) and a WhatsApp customer support bot handling live queries. n8n · Supabase · Twilio · Groq

EDUCATION & TRAINING

BS in Artificial Intelligence · Sindh Madressatul Islam University, Karachi 2022 – 2026

Certified Data Scientist & Certified Database Administrator · NED University (PITP) 2025

Generative AI Fellowship · Buildable — 3-month programme Aug – Nov 2025

Data Science Fellowship · Bytewise Limited — 3-month programme Jun – Sep 2024

CERTIFICATIONS

Microsoft Certified: Azure AI Apps and Agents Developer Associate (Aug 2026) · **Microsoft Certified: Azure AI Fundamentals, AI-900** (2024) · Machine Learning Specialization, Stanford/Coursera (2024) · Data Analytics & BI, DigiSkills (2024) · NLP with Python, LinkedIn Learning (2024) · Crash Course on Python, Google/Coursera (2023)

COMMUNITY & SPEAKING

Microsoft Learn Student Ambassador, Associate · SMIU Campus Lead Sep 2024 – Present

- Delivered 7 technical sessions on Azure Machine Learning Studio, generative AI, RAG systems and Azure OpenAI, reaching 100+ students.
- Mentored 50+ students on AI fundamentals and Microsoft ecosystem career paths.
